

What is the Middle Years Programme (IB-MYP)?

The **IB Middle Years Programme** aims to develop active learners and internationally minded young people who can empathize with others and pursue lives of purpose and meaning. The programme empowers students to inquire into a wide range of issues and ideas of significance locally, nationally and globally. The result is young people who are creative, critical and reflective thinkers.

IB Mission Statement

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

What is International Baccalaureate (IB)?

IB learners strive to become inquirers, knowledgeable, thinkers, communicators, principled, open-minded, caring, risk-takers, balanced and reflective. These attributes represent a broad range of human capacities and responsibilities that go beyond intellectual development and academic success. This is the IB's educational philosophy.

“CLPMS is small enough to know my child by name. They offer a variety of classes that challenge her in honors classes, advanced math and leadership. I like that the school encourages students in 6th, 7th, and 8th to work together. She is gaining a real-world perspective and supported through the challenges of middle school by a very dedicated and knowledgeable group of teachers and staff.”
