Cache La Poudre Middle School
Extracurricular Academic/Citizenship Eligibility Policy
2025-2026

The goal of CLP Middle School eligibility policy is to support students in academic success and extracurricular participation. All students involved will have a grade report run once a week to determine eligibility. Parents are urged to monitor players' grades on ParentVUE.

Students will be declared ineligible if they earn lower than a "2" in one or more classes, unless the student has an Eligibility Confirmation signed by the teacher of the class he or she was failing.

Students may be declared ineligible if they earn a major office referral resulting in In School Suspension or Out of School Suspension.

Students will be declared ineligible if they have not turned in all team paperwork and fees by the first practice day.

Students declared ineligible may be required to attend an after-school study hall to help correct the problem. Students will also be required to attend practice after study hall and are expected to attend the home athletic event in which they are ineligible to play. Ineligible students will not be dismissed early to attend away games.

Eligibility reports for grades will be run on Monday. This report will determine the following Wednesday through Tuesday eligibility list.

--Students must complete missing work and create a plan with their teacher to improve their low grade(s). They may get an eligibility confirmation slip signed by the teacher and turn in to the coach the day BEFORE competition.

On the third ineligibility, the student will run the risk of forfeiting their place on the team.

Athletes must attend school on the day of a game to be eligible to compete.

Athletes are expected to follow the same behavior expectations for school and athletics when riding district buses to games, matches, or meets.

**I have read and understand the CLP Middle School eligibility policy. Please sign below and return this form to your coach.
